

otis

by Loren Long

Children will love this monochromatic illustrated, New York Times bestselling story about two opposite personalities becoming long-lasting true friends.

Read

Before:

Introduce the book and tell the children a little bit about it. Follow that with a comment or question that is related to the story such as, *How do Otis and the calf become friends?* Encourage a discussion so the children can comment, ask questions, and express their feelings. Set the stage for listening by asking an "I wonder" statement based on the cover illustration.

- I wonder why Otis and the calf are sitting under the apple tree?

During:

Encourage the children to comment on the illustrations, ask questions, and predict what will happen next in the story. Children gain confidence and a sense of achievement through being able to correctly predict how a story will end. Point out "rare words" (e.g., those words that are not commonly used in every day conversation) and help the children relate the meaning in a way that makes sense to them.

Mud Exploration

You will need a bucket, cup, tub, sand table or plant holder, dirt (either from outside or potting soil), water, spoons and towels.

Talk about what makes mud and describe (using the senses smell, sight and touch) the elements. Next, pour the water into the dirt, and then mix together. Have the children describe, using their senses, what happens to the mixture. Take a few moments to explore the mud. If a child doesn't want to touch the mud, offer gloves or let them use a pencil. Then, add any object to the mud and ask questions to help aid the exploration. For example: What happens to the block when we push it in the mud? I wonder, without using our hands, what could we use to pull it out?

You can leave the container of mud as a center. Come back later in the day and describe what happens to the mixture when it starts to dry.
